The premium choice for concrete floor finishing

LOOKS GREAT ON THE
SURFACE
AND UNDERNEATH

Flortek Co. is a trusted floor finishing company serving Ontario. Thanks to our trusted partners in the field and with combined experience of over 20 years in the industry, we have grown to where we are today.

Our expertise is to deliver optimum flooring solution – even for the toughest environments. We provide Residential, Industrial, and Commercial concrete flooring solutions.

workmanship

At FLORTEKCO, we are committed to providing our customers with high-quality flooring services such as Concrete Prep, Traffic Coating, Epoxy Coating and Polished Concrete.

Although, we have extensive experience in all different services we provide, Flortek is very specialized (ie. Traffic and Pedestrian Coating).

FRIENDLY
COATINGS AND
FINISHINGS

- CONCRETE FLOOR REINFORCEMENT
- SURFACE TREATMENT
- SURFACE FLOOR FINISH
- STAINING CONCRETE FLOORS
- DECORATIVE CONCRETE FLOORS
- SELF-LEVELING CONCRETE OVERLAYS
- SCHEDULED MAINTENANCE
- CONCRETE CRACK REPAIR
- CONCRETE POLISHING

commercial

Commercial concrete can be broadly defined as concrete used to build or enhance business facilities, such as warehouses, retail stores, carwash facilities, restaurants and more..

It usually has greater demands placed on it in terms of structural performance and durability. Commercial concrete floors and pavements often require a stronger concrete mix design and heavier reinforcement.

UNIQUE + ATTRACTIVE
DISTINCTIVE
CONCRETE
FLOORING SOLUTIONS

- DECORATIVE CONCRETE FLOORS
- BASEMENT FLOORS
- RADIANT FLOOR HEATING
- GARAGE FLOOR RESURFACING
- EPOXY FLOOR COATING
- NON-SLIP KITCHEN FLOOR COATINGS
- CONCRETE FLOOR SEALING
- CONCRETE POLISHING

residential

The design of the residential floor is a collaborative effort involving the building or home owner and an expert from FLOrTEKCO.

Residential concrete floors are more common among the trendy, luxury homes and condo developments. One of the more popular choices for residential floors is *staining* due to its versatility allowing you to achieve just about any look imaginable to suit your design taste and budget.

- URETHANE CONCRETE
- SAFETY MARKINGS AND LINE PAINTING
- WATER PROOFING CONCRETE SURFACES
- EPOXY FLOOR SURFACES
- NON-SKID COATINGS
- CRACK REPAIR
- SELF-LEVELING OVERLAYS

industrial

The Concrete floors for industrial or manufacturing plants have special requirements based on the loads or flatness or levelness required.

To get a slab that meets these requirements, we at FLORTEKCO use special techniques in placing and finishing the concrete. In addition you can also request your industrial floors to have special surface hardness, finish, and even color matching your brand.

HOME + OFFICE + WAREHOUSE
COST EFFECTIVE
HYPOALLERGENIC
CONCRETE APPLICATION

- DIAMOND POLISHED CONCRETE FLOORS
- CONCRETE DUST PROOFING
- MANUFACTURING/INDUSTRIAL FACILITY
- LEED CERTIFIED (VOC FREE)
- REDUCES DUST AND POLLEN

polishpro

Polished Concrete Floor is a low cost, low maintenance floor finishing solution that is highly sought after in most commercial, industrial and warehouse buildings. Eliminating dusting, environmentally friendly, different exposure and sheen levels are just a few of the many benefits this finish has.

Polished Concrete or diamond polishing has gained popularity amongst architects, engineers, designers, contractors and homeowners as it has become a more cost friendly, safe and long-term durable floor than conventional flooring options.

SAFETY MARKINGS
UNDERGROUND
WATERPROOF MEMBRANES
ABOVE GROUND PARKING

- ELASTOMERIC TRAFFIC COATING OR MEMBRANE APPLICATION
- NEW VEHICULAR COATING
- NEW PEDESTRIAN COATING
- TRAFFIC COATING REMOVAL OR REPAIR
- CONCRETE SEALER

parkadepro

First impressions matter and the parking area is the first point of contact for guests, customers or homeowners to virtually any site or high-rise condo.

Aesthetics, however, is just a small part of a traffic or pedestrian coating system, also referred to as traffic coating membrane or elastomeric traffic coating, these systems are mandatory in parking garages to eliminate concrete deterioration, increase visibility, add slip resistance/traction and most importantly waterproof.

PROTECTIVE COATING
HIGH GLOSS
NON-SLIP FINISH
OUTDOOR OR INDOOR

- SOLID COLOUR EPOXY
- FLAKE SYSTEM
- QUARTZ SYSTEM
- POLYASPARTIC COATING
- WAREHOUSE SAFETY LINES

epoxypro

Epoxy Floors are a popular finish for commercial spaces to domestic garages. With a non-slip finish for wet areas there is a wide range of colors and different effects. The hardness of an Epoxy Coating makes the perfect answer for a modern floor.

Flortek Co. proudly offers high quality Epoxy Flooring throughout Ontario.

PROTECTIVE COATING
GLUE REMOVAL
NON-SLIP FINISH
OUTDOOR OR INDOOR

- GLUE, MASTIC OR COATING REMOVALS
- CONCRETE PREPARATION BY GRINDING
- CONCRETE PREPARATION BY SHOT BLASTING
- CONTROL JOINTS AND EXPANSION JOINTS

preppro

Proper concrete preparation is crucial, whether it's removal of existing floors, coatings or preparation for new flooring, Flortek Co services throughout Ontario.

Concrete grinding and polishing are usually carried out by large floor grinding machines that have diamond impregnated metal or resin bits on large oscillating machines. Generally these bits are measured in grits. The higher the grit ratio the finer finish it will leave on the concrete.

The premium choice for concrete floor finishing.
